Latest Styles In HATS

Our stock of Hats arrived by the Wilhelmina Tuesday, too late for the Christmas trade, so we will offer them at reduced prices rather than keep them in stock.

We call particular attention to our line of silk fur hats, which is the latest out.

Our line of Panama and soft hats is complete in every respect.

NEWSPAPER LAW APPLIES TO HAWAII

By C. S. ALBERT

(Special Star-Bulletin Correspondence)
WASHINGTON, Dec. 12.—If the newspaper publicity feature of the last post office appropriation act is held constitutional by the United States Supreme Court it will be applicable to Hawaii.

Two paragraphs in the post office money bill as passed by Congress, and as it becomes a law, provided that all newspapers must publish the names of owners and stockholders. Also that all advertisements printed as reading matter must be marked as advertisements. Other objectionable stipulations were contained in the act.

It was at once held that newspapers would be compelled to make all their private affairs public. A great hardship would result to the smaller country papers. Two test suits were brought and hurried to the supreme court. Bills were introduced in congress to repeal the obnoxious clauses.

When counsels were arguing the suits in the Supreme Court, Chief Justice White propounded a number of questions and finally expressed the conviction that if the law applied to be applicable to Hawaii. The newspapers here accepted the statute as binding upon them and published their required statements.

The attitude of Chief Justice White clearly indicated that if the law is held constitutional it covers the Hawaiian Islands.

After a \$2000 robbery at Maricopa, Cal., the robbers absolutely disappeared. An aeroplane was heard after nightfall, and it is thought the robbers made their escape from the scene by the overland route.

Mrs. Ida Shannons was sentenced to jail for one hour for embezzling \$800 from the post-office at Gettysburg, Ore., where she was the post-mistress.

hence the order that will arm the Second with the shovel instead of the rifle. The extent of the fortifications is not decided as yet, and will depend somewhat on the amount of digging that the "doughboys" can do during the practical course. It is probable, however, that a definite arrangement of pits and shelters will be laid out on paper, and the soldiers kept at it until a permanent and serviceable line has been established.

ATHLETIC SPORTS DAY ADDED TO CARNIVAL

A day of athletic sports has been added to the program for the Mid-Winter Carnival week. The date has not yet been definitely settled upon, but preparations are under way. One thing that adds special importance to the proposed athletic nature of the Carnival week is that the local branch of the A. A. U. will hold its annual field day under the auspices of the sports management of this meet.

It was at a meet of this kind that Duke Kahanamoku first made the record as a swimmer, beating all world records, which brought him into prominence. Hawaii was then hardly on the world's map, in an athletic sense, and it took some time for the sporting world to realize what he had done, and give due credit for it. But when he went abroad and repeated the performance, and beat all the other world's champions, full recognition was given, and now the Honolulu branch of the American Amateur Athletic Union is known everywhere, and its records are consulted.

This gives great importance to the coming meet to be held under the auspices of the Carnival committee. It will be held under the rules of the A. A. U. and the records will be authentic. Various local athletic clubs are planning entries, and there is some reason to hope that Hawaii may yet others besides Duke in the championship list.

Figuring on athletic results at the various American universities which have been attained by youths from Hawaii in the past ten or twenty years, it is stated that Hawaii leads all the rest of the country in this number of "Varsity teams men, captains of teams and makers of records, in proportion to her population. Hence the enthusiasts are hoping for big things in the coming meet during Carnival week.

Lorin Andrews, who was largely instrumental in establishing the A. A. U. in Hawaii, has accepted the chairmanship of the committee on athletics.

MOVING PICTURE ACTORS

As a result of putting so many road companies out of the running, hundreds of actors and actresses found themselves out of jobs. What put us on the blink? they asked themselves. The "movies" was the answer. All right, let's get a job with the "movies." And forthwith the offices of the moving-picture companies were invaded by the players of the regular

Young Man:

You must wear clothing during 1913 as was customary during 1912. Our stock has not been depleted in the least by the heavy trade of the last few weeks. Our goods keep coming right along.

Many a young man gets a benefit from good clothes that's much greater than the cost of them. We're working along that idea every day in the year and have produced in Honolulu for young men the styles and models that will give them the greatest measure of smart fashion, with the highest degree of quality-value, and without going to such style extremes as to undo the good that such clothes can do.

Youthful models, youthful colors and patterns, youthful weaves; designed and cut by special young men's experts; sizes for the big, brawny football athlete or for the small and lively "rooster."

lection of interesting "Tales from the ex-Tanks," that proved amusing as well as varied.

Maybe it was the mellowing influence of the holiday season that had to do with the slight reduction in the amount usually assessed those convicted of intemperance. At any rate, those brought face to face with justice were let off with a two-dollar assessment.

In some instances, the more fortunate favored deposited bail, upon being arrested, which sums were in most cases declared forfeited this morning.

The handling of the crowd on Christmas eve by a limited force left little to be desired. Sheriff Jarrett had his men stationed at all points about the downtown district, where congestion of traffic or trouble might be expected.

A keen watch was kept for any dis-

play of hoodlumism upon the part of a delegation of youngsters. Several lads caught in attempting to throw confetti gathered from the sidewalks were hustled to the station and kept there until the celebration had passed into history.

Motorcycle and bicycle officers were on duty at the station, subject to instant call. The motor patrol soon made quick work in the removal of an objectionable person.

The streets were remarkably free from drunkenness and disorder, when the magnitude of the throng is considered.

No serious accidents were reported to the police. Vehicle traffic was regulated to an extent that collisions were easily averted. The attempt to use fireworks, sneezing powder, pepper, flour and other substances was promptly discouraged.

Ground is to be broken on New Year's Day for Machinery hall on the grounds of the Panama-Pacific exposition at San Francisco.

ARMY PLANNING

(Continued from Page 1)

the Red army took up a position and repulsed all attempts of the Blues to dislodge it, during the maneuvers last October. It is figured that to have entrenchments ready-made would be following the old adage concerning preparations for war in the piping times of peace.

The occasion for starting the dirt flying, however, is the fact that the making of field fortifications is part of the regular training of the soldier. Properly it comes during the period of field training, but the local troops are so busy with practice marches and other exercises during the summer that it is the plan, taking weather conditions into consideration, to make the practical construction part of the garrison period of the school of the soldier.

"Why not dig and delve to some purpose?" said the higher-ups, and
